**Outreach for LGBTQ Sex Workers (2018, 2020)**

This project aims at strengthening the anti-drug awareness of Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) sex workers. Project elements include outreaching to LGBTQ sex workers; dissemination of anti-drug booklets and professional counselling to drug abusing sex workers; and recruiting volunteers to attend training for spreading anti-drug messages to LGBTQ sex workers during the outreach sessions.

**LGBT Drug Prevention Service (2020)**

This project aims at providing targeted prevention education and treatment for lesbian, gay, bisexual and transgender (LGBT) community and enhancing the capability of frontline workers in working with the LGBT youths and their families. Project elements include production of videos and posters with anti-drug messages targeting the LGBT community, conducting online outreach, physical outreach during various gays events and providing motivational interviews and drug education to gay community during HIV test outreach, counselling, group-based resilience-enhancement activities and medical support with psychiatric assessment and treatment, general medical consultation or Chinese medical support or treatment for high-risk and drug taking LGBT youths, and organising professional training workshops for social workers.

**SACH-IV: Anti-drug Prevention and Treatment Scheme (HIV Infected and High Risk Groups) (2020)**

This project aims at improving the motivation to quit drugs among HIV-infected drug abusers, promoting inter-disciplinary and cross-sector collaboration to deal with specific drug abuse patterns of HIV-infected persons and providing preventive education to tertiary students, professional teachers and high-risk population for HIV infection. Project elements include individual and group counselling sessions, preventive education about Chem Fun/Chem Sex culture and volunteer group programme to HIV-infected drug abusers or high-risk population for HIV-infected drug abusers, group counselling sessions to family members or partners of HIV-infected persons, professional sharing sessions on drug abuse and public events for anti-drug preventive education.

**Embrace Life, Embrace Yourself – Integrated Anti-drug Service Scheme for Female and Transgender Female Sex Workers (2019)**

This project aims at providing an integrated anti-drug service to enhance the knowledge of female and transgender female sex workers on the harm of drug use and cultivating a healthy lifestyle to lower their risk of drug abuse. Project elements include individual and outreach visits, group activities, hotline and online outreaching, group and centre-based activities, production of anti-drug booklets and souvenirs, provision of counselling,

---

medical and referral services to female and transgender sex workers with drug abuse problems. Training workshops for frontline workers from medical, social service and education sectors and tertiary school students will also be organised.

**Integrated Anti-Drug Service 3.0 (2019)**

This project aims at enhancing the anti-drug knowledge of gay population and gay drug abusers' motivation to seek help and quit drugs. Project elements include preventive education to gay population including physical and internet outreaching services to disseminate anti-drug messages and recruitment of peer educators. Peer counsellors will produce an educational micro-movie and conduct further outreaching services. Individual assessment and referral to medical treatments will be provided for the needy. Chem Fun care programme will also be provided to encourage gay drug abusers to seek help and achieve better emotional control with physical exercises. In addition, professional training will be provided to social workers.

**“HERO+” MSM Support Service (2018)**

This project aims at providing holistic and gay-friendly drug rehabilitation treatment and programmes to men who have sex with men (MSM). Project elements include online outreach, counselling, healthy activity, supportive group, expressive art workshop, creative group, voluntary activity and narrative therapy for drug-abusing or high risk MSM. The project will also co-operate with Department of Social Work of The Hong Kong Baptist University to develop a specific intervention model for MSM drug users and apply narrative therapy in counselling and group work, with a sharing session for anti-drug workers on exploring narrative therapy as an effective means for case intervention to be conducted.
