## HIV/AIDS Statistics

### Routes of transmission of HIV infection

感染愛滋病病毒人士之傳染途徑

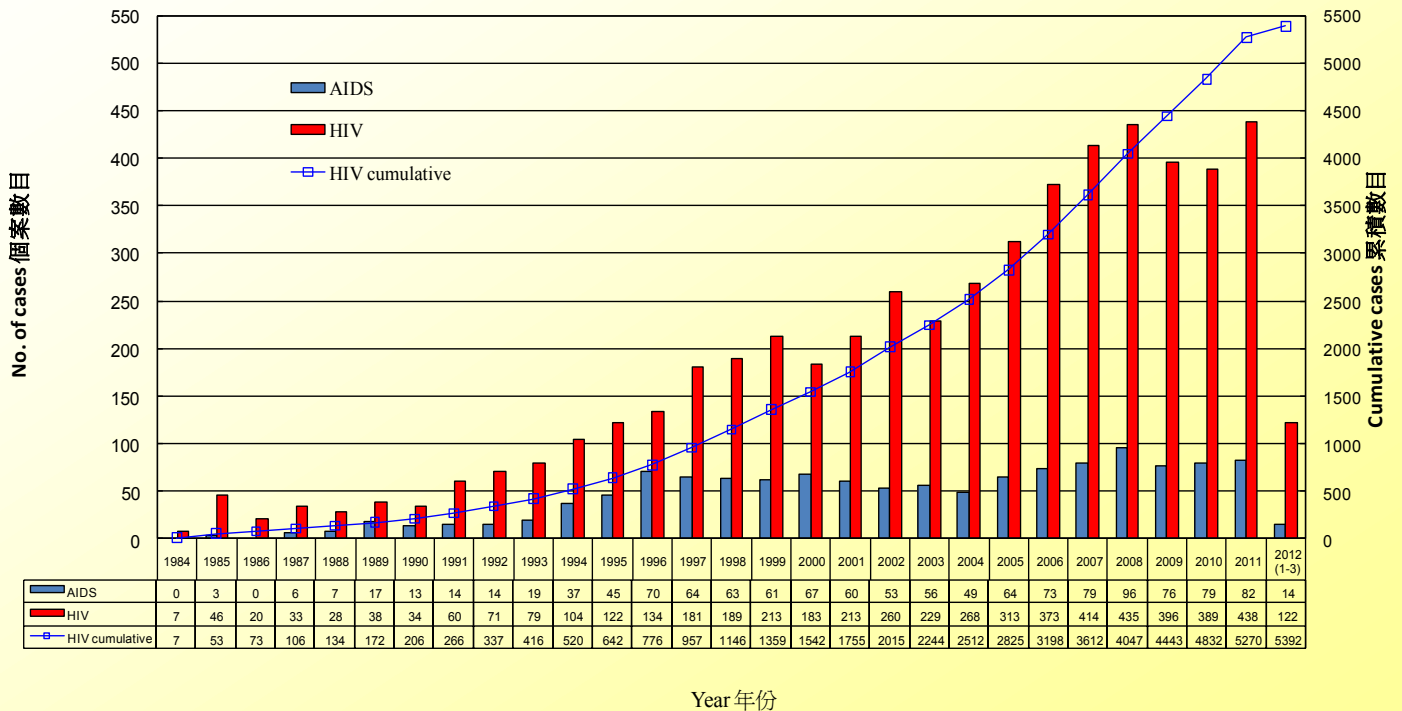

1984 – March 2012 (N=5392)

## Annual HIV/AIDS Statistics

香港每年愛滋病病毒感染及愛滋病統計

1984 – March 2012, Hong Kong (N=5392/1281)

The XIX International AIDS Conference is the premier gathering for those working in the field of HIV, as well as policymakers, people living with HIV and others committed to ending the epidemic. It will also be a tremendous opportunity for researchers from around the world to share the latest scientific advances in the field, learn from one another's expertise, and develop strategies for advancing all facets of our collective efforts to treat and prevent HIV.

The theme of the AIDS Conference is "Turning the Tide Together". By acting decisively on recent scientific advances in HIV treatment and biomedical prevention, the momentum for a cure, and the continuing evidence of the ability to scale-up key interventions in the most-needed settings, it is considered that we have the potential to change the course of HIV and AIDS and hence, each and every stakeholder in the AIDS response should play their role to turn the tide on HIV.

Since USA is at the forefront of scientific researches and the field has been very active on scientific evidence generation for prevention and treatment in the past two years, participants of the event will be updated on new scientific knowledge and given many opportunities for structured dialogue on the major issues facing the global response to HIV. It would also be a great opportunity for the various stakeholders to gain new insights and reflect on the new AIDS Strategies.

The AIDS Trust Fund will sponsor the Chairperson of the Hong Kong Advisory Council on AIDS (ACA), Dr Susan FAN Yun-sun to participate in the XIX International AIDS Conference. Dr FAN can share her valuable experience with local AIDS workers upon her return to Hong Kong. Please visit <http://www.aids2012.org> for more information related to the Conference.
