## Promotion of HIV Prevention

In 2012, the Red Ribbon Centre (RRC) held various HIV prevention activities and publicity in accordance with the recommended HIV/AIDS strategies for Hong Kong 2012 – 2016 issued by ACA.

### Men who have sex with men (MSM)

MSM remains the highest priority community for HIV prevention. HIV testing and condom use have been promoted through different channels including Gay Film Festival, Hong Kong Gay Pride Parade, gay magazines, gay websites, mobile app, and meetings with representatives from the MSM communities.

### Sex workers

Promotion of HIV testing and safer sex was conducted through distribution of souvenirs and condoms by various NGOs during outreach sections and centre-based programmes.

*Mirrors distributed to female sex workers promoting use of condom.*

### Drug users

Outreach peer education through Phoenix Project and yearly Street Addict Survey were carried out by collaborating with NGO. Early detection of HIV is promoted through Universal HIV Antibody Urine Testing in Methadone Clinic (MUT) Programme.

*Poster introducing MUT Programme.*

## Travellers

Safer sex was promoted to the travellers through board exhibitions, distribution of educational materials and video shows at the Airport and borders including Lok Ma Chau, Shenzhen Bay and China Ferry Terminal.

*Board exhibition at the Airport in 2012.*

## Students and general public

Multiple channels including radio programmes, musical concert, funding of community programmes and site visit at RRC were used to increase the public and student awareness about HIV infection.

*Site visit by students at RRC.*

*Musical concert at the Hong Kong Baptist University for primary and secondary school students.*

## Surveys – school surveys and response indicators

With the steer of a special working group set up by ACA, survey on Life-skill based HIV education (LSBE) in junior secondary schools has been started through collaboration with the Education Bureau. Preparation for collection of key response indicators for different at risk populations is underway through collaboration with NGOs.
