1984 – March 2014, Hong Kong (N=6496/1457)

STEPPING UP THE PACE

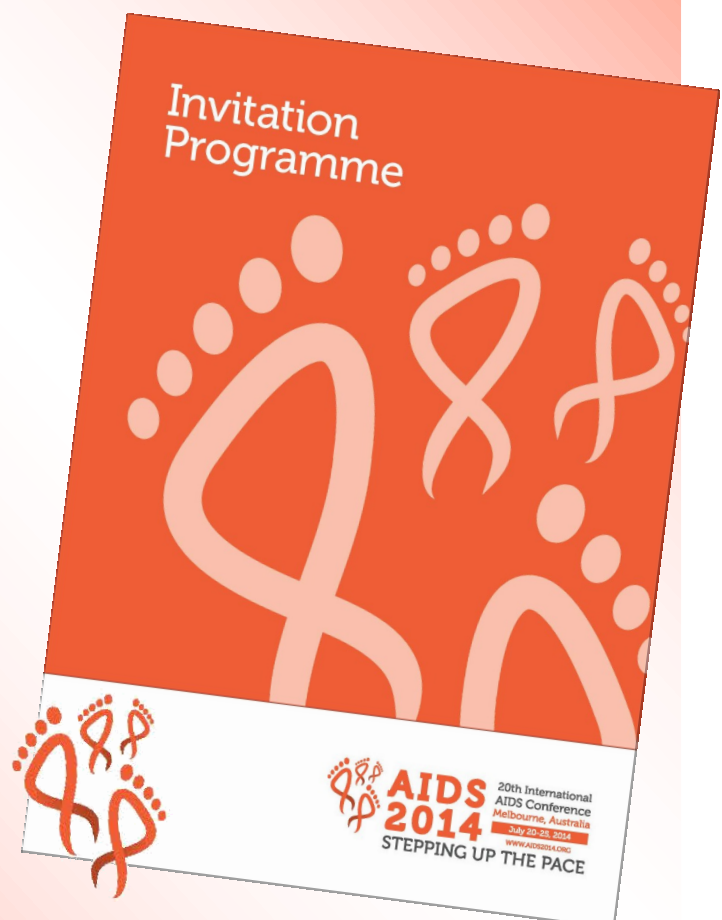

The 20th International AIDS Conference (AIDS 2014) will be held from 20 to 25 July, 2014 in Melbourne, Australia. The biennial International AIDS Conference is the premier gathering for those working in the field of HIV, as well as policymakers, people living with HIV and others committed to ending the epidemic. It will be a unique opportunity for researchers and different people from around the world to share the latest scientific advances in the field, learn from one another's expertise, and develop strategies for advancing all facets of the collective efforts to treat and prevent HIV.

The theme of this year's Conference is "Stepping up the Pace", which recognizes that we are at a critical time to capture the optimism recently emerged and further build on it to ensure that HIV remains on top of the global agenda. The pace needs to be increased to reverse the trajectory of the epidemic. The AIDS 2014 provides a precious opportunity for mobilizing stakeholders, joining forces and building on the present momentum necessary to change the course of the epidemic.

Health care workers in the public service as well as workers from AIDS related non-governmental organizations will attend the Conference. A sharing session will be expected after the meeting.

Melbourne Convention and Exhibition Centre (MCEC)
